

## Years EYFS/1 and 2 Spring Term 2, 2022 Home and Away

### PHSE

Our PHSE unit is called Healthy Me. We will explore how to keep our minds and bodies healthy. Including looking at healthy food, exercise and finding different ways to keep ourselves calm through music and positive thoughts.

### Computing

The children will learn to make a short cookery TV programme. Tying in with DT the children will make a healthy wrap and film it using the ipads.

### RE

Our unit this term is Salvation. We will begin with a walk around our local area looking for signs of Spring and new hope. We will learn about Easter and why it is so important to Christians. We will learn the significance of each day during the Holy week. The children will be able to explain the importance of symbols at this time of year.

### PE

Children will learn to select and link movements together to fit a theme. They will explore and describe different movements. Using the technique of mirror mirror they will observe and copy others. Performing a sequence of movements for an audience.

### Maths

This term, EYFS will use practical investigation based around the MNP scheme to develop their early numeracy skills. Year 1 and 2 will use Maths No Problem to support their learning and to continue journaling. The Year 1 focus will be exploring numbers to 40, addition and subtraction, multiplication, division and fractions. Year 2 will learn about money, 2D and 3D shapes as well as SATs practise tasks.

### English

In English, we will be completing challenges in our Talk 4 Writing sessions, working on the genre of journey story writing. Exploring rich and ambitious vocabulary. We will use the story 'Meerkat Mail' to explore the journey of Sunny and how he visits different families on his travels to find a place he feels comfortable in. We will then innovate the story with our own ideas for his travels! The focus will be sentence building, creative story writing cohesion and structure.

### Science

In Science, the children will explore carrying out and recording experiments and investigations! They will make predictions, control variables, complete a method and record their results using skills such as tallying. They will apply their knowledge of healthy eating, look at mental health importance, effects of sleep on our health, and carry out experiments to better understand personal hygiene habits such as handwashing, why we should exercise and the importance of keeping themselves hydrated.

### Geography

The children will learn about the continents and oceans of the world. They will then focus on the country of Australia, they will learn about its territories and states, they will also learn about physical and human features in Australia and compare those with the UK. They will also learn about animals that are indigenous to Australia and what life is like for different people that live in different parts of Australia.

### Art/DT/Music

#### DT

The children will design a wrap using healthy ingredients.

#### Art

Our artwork this term will focus on Aboriginal art, exploring techniques such as cross hatching, dot painting and Naturalistic styles. We will explore the Australian artist Ken Done.

#### Music

Learning to play the notes c,d,e. Listening to a variety of music and nursery rhymes.
