

Years 5 & 6

Spring Term 1 2026

PHSE

Focus on economic wellbeing, learning about managing money, saving, and making informed financial choices.

Computing

Introduction to big data, exploring how information is collected, stored, and used in the modern world.

RE

Studying Sikhism, exploring beliefs, practices, and the importance of faith in daily life.

PE

We will be developing skills in netball, including teamwork, strategy, and fitness. We will also be swimming every Tuesday and have Towcestrians delivering Tag Rugby sessions on Fridays..

English

In English, Y6 will be exploring tales of fear, developing their creative writing skills and understanding of suspenseful storytelling techniques. Y5 will be working together on our special Shakespeare unit.

Maths

Year 5's: Focus will be on fractions. Year 6: Focus on percentages, ratio, and algebra, building problem-solving and reasoning skills.

Science

Focus on evolution and inheritance, understanding how living things have changed over time and how traits are passed from one generation to the next.

History, Music, & DT

We will dive into Ancient Greece, learning about Greek society, mythology, and their contributions to the modern world. Pupils will design and evaluate playgrounds, applying practical skills and creativity. Pupils will participate in Big Sing practice, building confidence, performance skills, and language awareness through songs.
