

What will we be learning in Spring Term 1? Years 5 & 6

PHSE

We will focus on economic wellbeing, learning about managing money, saving, and making informed financial choices.

Computing

We will introduce big data, exploring how information is collected, stored, and used in the modern world.

RE

We will be Sikh beliefs, practices, and the importance of faith in daily life. We will also be visiting a Gurdwara (details to follow!)

PE

We will develop skills in netball, including teamwork, strategy, and fitness.
Please ensure full federation PE kits are in school everyday.

English

In English, the children will explore tales of fear and develop their creative writing skills and understanding of suspenseful storytelling techniques.

Maths

Year 4 & 5: the focus will be on fractions and graphs, developing calculation skills and data interpretation.
Year 6: the focus will be on percentages, ratio, and algebra, building problem-solving and reasoning skills.

Science

The unit this term is on evolution and inheritance, understanding how living things have changed over time and how traits are passed from one generation to the next.

History, Music, PSHE & DT

We will dive into Ancient Greece, learning about Greek society, mythology, and their contributions to the modern world.
Pupils will design and evaluate playgrounds, applying practical skills and creativity.
Pupils will participate in Big Sing practice, building confidence, performance skills, and language awareness through songs. Details to follow!
